

Modrus Hosted Exchange

Modrus Hosted Exchange provides a comprehensive email and collaborative working environment, located within Modrus' UK based, hosting environments. Modrus Hosted Exchange is accessible from desktop & laptop computers, webmail and from a range of mobile phones including iPhone®, Blackberry® and those running Windows Mobile®. For companies requiring 50 mailboxes or more, Modrus Hosted Exchange removes the need for expensive hardware and software purchases, offers a clearly defined total cost of ownership and provides corporate level support – allowing you to concentrate on your core revenue generating activities.

Industry Standard Solution

Based upon the industry standard Microsoft Exchange® application, Modrus Hosted Exchange provides comprehensive emailing facilities. The service features integrated anti-spam and anti-virus protection, plus access to shared calendars and files, with a generous 2GB of storage per mailbox.

Numerous Accessibility Options

Modrus Hosted Exchange can be accessed from desktop or laptop computers using Microsoft Outlook®*, while Outlook Web Access® provides secure access from any Internet browser. In addition the service supports numerous mobile phones / PDAs including iPhone, Blackberry and those running Windows Mobile, all with full, automatic synchronisation.

* The monthly fee includes a Microsoft Outlook license for each mailbox.

Clearly Defined Total Cost of Ownership

With a fixed, monthly, per mailbox tariff covering every aspect of the service, your expenditure is completely defined and visible from the outset. Modrus Hosted Exchange replaces high hardware and software installation

and maintenance costs with a flat fee, predefined, budgetary expenditure.

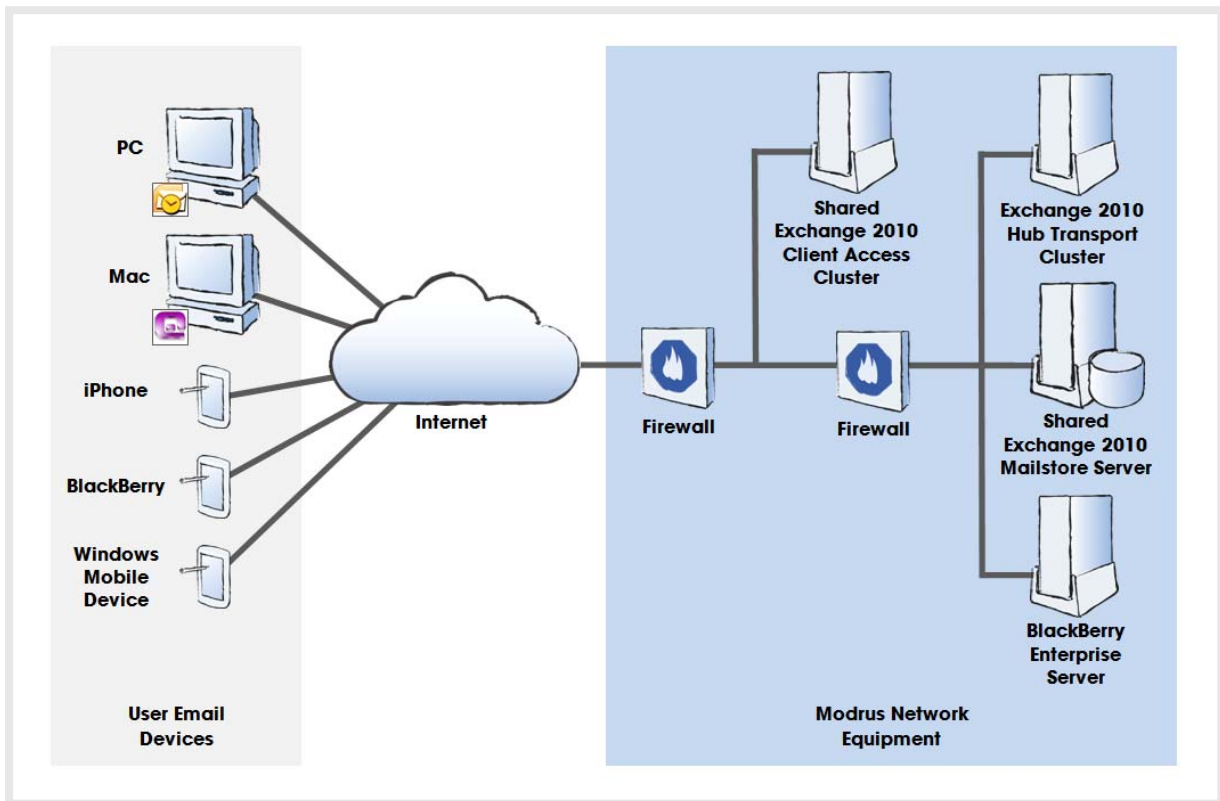

Corporate Level Support

Even with the right in-house technical staff, managing and maintaining an Exchange server effectively is a massive drain on resources. Modrus technicians are Exchange experts and ensure our service continues to provide the very best that Microsoft Exchange can offer. We provide all of the support that you would expect from an established IT department – but we offer better value service, have the benefit of a breadth of experience across thousands of users and will not go off sick or take holidays.

Unbeatable System Uptime Guarantee

Modrus supplies all of the required system hardware, backs-up all data up on a daily basis and proactively monitors everything 24/7 from its sophisticated operations centre. On many occasions this means that if an issue occurs, it is rectified before you are even aware of it. Modrus is extremely confident of the processes in place and offers a cast-iron uptime guarantee. If your system is down, you don't pay for it – it's as simple as that.

Modrus Hosted Exchange

Modrus Hosted Exchange can be accessed from desktop or laptop computers using Microsoft Outlook®, while Outlook Web Access® provides secure access from any Internet browser. In addition the service supports numerous mobile phones / PDAs including iPhone, Blackberry and those running Windows Mobile, all with full, automatic synchronisation.
